NEUROSCIENCE LETTERS

Vol. 181 Nos. 1,2 **NOVEMBER 7th, 1994**

CONTENTS

(Cited in Biological Abstracts (BIOSIS), Chemical Abstracts, Current Contents/Life Sciences, Excerpta Medica (EMBASE), Index Medicus, PASCAL M and Science Citation Index)

Guidelines for the Submission of Manuscripts v

Amino acids differentially inhibit the L-[^{3}H]arginine transport and nitric oxide synthase in rat brain synaptosomes
M.C. Lopes, S.A. Cardoso, A. Schousboe and A.P. Carvalho (Portugal, Denmark) 1

Rapid turnover rate of the hippocampal synaptic NMDA-R1 receptor subunits
I. Soltesz, Z. Zhou, G.M. Smith and I. Mody (USA) 5

Naltrindole, an opioid δ antagonist, blocks the enhancement of morphine-antinociception induced by a CCK_B antagonist in the rat
M.H. Ossipov, C.J. Kovelowski, T. Vanderah and F. Porreca (USA) 9

Muscarinic receptors in rat cortex, hippocampus, hypothalamus and brainstem following transient forebrain ischemia and hemorrhagic shock
T.A. Zırh, E. Iskender, F. Onat, M.N. Pamir and S. Oktay (Turkey) 13

Interhemispheric cooperation during lexical processing is mediated by the corpus callosum: evidence from the split-brain
B. Mohr, F. Pulvermüller, J. Rayman and E. Zaidel (USA, Germany) 17

Polyreactive autoimmune response induced by PC 12 cell grafts into rat striatum
F. Dehaut, K. Haddad and J.F. Leterrier (France) 22

Effect of opioid receptor agonists on nitric oxide synthase activity in rat cerebral cortex homogenate
M.J. Barjavel and H.N. Bhargava (USA) 27

The expression of the calcitonin receptor gene in the brain and pituitary gland of the rat
W.J. Sheward, E.M. Lutz and A.J. Harmar (UK) 31

Identification of an AP-1-like sequence in the promoter region of calcyclin, a S-100-like gene. Enhancement of binding during retinoic acid-induced neuroblastoma cell differentiation
F. Bottini, K. Mazzocco, T. Abbondi and G.P. Tonini (Italy) 35

The nociceptive systems of skin, paravascular tissue and hand veins of humans and their sensitivity to bradykinin
D. Kindgen-Milles, W. Klement and J.O. Arndt (Germany) 39

Visualization of sensorimotor areas involved in preparation for hand movement based on classification of μ and central β rhythms in single EEG trials in man
G. Pfurtscheller, M. Pregenzer and C. Neuper (Austria) 43

TIPP[Ψ], a highly selective δ ligand
L.M. Visconti, K.M. Standifer, P.W. Schiller and G.W. Pasternak (USA, Canada) 47

Inhibition of low- and high-threshold Ca^{2+} channels of human neuroblastoma IMR32 cells by Lambert-Eaton myasthenic syndrome (LEMS) IgGs
C. Grassi, V. Magnelli, V. Carabelli, E. Sher and E. Carbone (Italy) 50

U50,488, a κ opioid receptor agonist, attenuates cocaine-induced increases in extracellular dopamine in the nucleus accumbens of rats
I.M. Maisonneuve, S. Archer and S.D. Glick (USA) 57

Immunohistochemistry using antibodies to α-interferon and its induced protein, MxA, in Alzheimer's and Parkinson's disease brain tissues
T. Yamada, M.A. Horisberger, N. Kawaguchi, I. Moroo and T. Toyoda (Japan, Switzerland) 61

Competitive antagonism of serotonin $(5\text{-HT})_{2C}$ and 5-HT_{2A} receptor-mediated phosphoinositide (PI) turnover by clozapine in the rat: a comparison to other antipsychotics
H. Canton, L. Verrièle and M.J. Millan (France) 65

D_1- and D_2-receptor mediation of motoric behavior in rats depleted of DA as neonates: effects of age and size of depletion
E.M. Byrnes, B.J. Johnson and J.P. Bruno (USA) 69

Expression of β-amyloid precursor protein (APP) in human dorsal root ganglia
F.J. Naves, B. Calzada, A. Cabal, V. Alonso-Cortina, M.E. Del Valle, M.T. Fernandez-Sanchez and J.A. Vega (Spain) 73

Metabotropic glutamate receptor-induced disinhibition is mediated by reduced transmission at excitatory synapses onto interneurons and inhibitory synapses onto pyramidal cells
M.A. Desai, C.J. McBain, J.A. Kauer and P.J. Conn (USA) 78

Immunolabelling for VDAC, the mitochondrial voltage-dependent anion channel, on sarcoplasmic reticulum from amphibian skeletal muscle
T.M. Lewis, M.L. Roberts and A.H. Bretag (Australia) 83

Interleukin-1β induces histamine release in the rat hypothalamus in vivo
M. Niimi, T. Mochizuki, Y. Yamamoto and A. Yamatodani (Japan) 87

Dimethylsulfoxide (DMSO) eliminates the response of the sensory neurones of an insect mechanoreceptor, the femoral chordotonal organ of *Locusta migratoria*, but blocks conduction of their sensory axons at much higher concentrations: a possible mechanism of analgesia
G. Theophilidis and K. Kravari (Greece) 91

The role of protein kinase C in inducing Alzheimer's A68 protein expression in the culture of human neuroblastoma cells
L. Zhang (USA) 95

Exposure of rat spinal neurones to NMDA, AMPA and kainate produces only short-term enhancements of responses to noxious and non-noxious stimuli
M.J. Cumberbatch, J.F. Herrero and P.M. Headley (UK) 98

Monoclonal IgM reactive with several gangliosides in a chronic relapsing polyneuropathy
I. Brindel, J.-L. Preud'homme, J.-M. Vallat, D. Vincent, J.-L. Vasquez and M.-O. Jauberteau (France) 103

Cholinergic modulation of dopamine overflow in the rat neostriatum: a fast cyclic voltammetric study in vitro
M. Kudernatsch and B. Sutor (Germany) 107

Omega AGA toxin IVA blocks high-voltage-activated calcium channel currents in cultured pars intercerebralis neurosecretory cells of adult locusta migratoria
U. Bickmeyer, W. Rössler and H. Wiegand (Germany) 113

The rat preprotachykinin-A promoter is regulated in PC12 cells by the synergistic action of multiple stimuli
C.F. Morrison, J. McAllister, V. Lyons, K. Chapman and J.P. Quinn (UK) 117

Increased apoptosis in the cingulate sulcus of newborn piglets following transient hypoxia-ischaemia is related to the degree of high energy phosphate depletion during the insult
H. Mehmet, X. Yue, M.V. Squier, A. Lorek, E. Cady, J. Penrice, C. Sarraf, M. Wylezinska, V. Kirkbride, C. Cooper, G.C. Brown, J.S. Wyatt, E.O.R. Reynolds and A.D. Edwards (UK) 121

Putative neuropeptide Y antagonist failed to decrease overeating in obese Zucker rats
B. Beck, A. Stricker-Krongrad, N. Musse, J.-P. Nicolas and C. Burlet (France) 126

The engraftment of transplanted primary neuroepithelial cells within the postnatal mouse brain
T.J. Kilpatrick, S.S. Cheema, S.A. Koblar, S.-S. Tan and P.F. Bartlett (Australia) 129

Detection of a 23 kDa human brain protein that shares epitope(s) with the 17 kDa core protein of human immunodeficiency virus (HIV)
T. Kato, K. Kurita, T. Kawanami and H. Sasaki (Japan) 134

Actions of agonists and convulsant antagonists on a *Drosophila melanogaster* GABA receptor (Rdl) homo-oligomer expressed in *Xenopus* oocytes
S.D. Buckingham, A.M. Hosie, R.L. Roush and D.B. Sattelle (UK) 137

Immunocytochemical evidence for a glial localisation of arginine, and a neuronal localisation of citrulline in the rat neurohypophysis: implications for nitrergic transmission
D.V. Pow (Australia) 141

Contributions of multiple calcium channel types to GABAergic transmission in rat cultured hippocampal neurons
T. Ohno-Shosaku, K. Hirata, S. Sawada and C. Yamamoto (Japan) 145

Reversibility of the effect of tacrine on the secretion of the β-amyloid precursor protein in cultured cells
D.K. Lahiri (USA) 149

Forskolin blocks the transient K current of rat cerebellar granule neurons
P. Zerr and A. Feltz (France) 153

Kainic acid induced seizures cause a marked increase in the expression of neurokinin-3 receptor mRNA in the rat cerebellum
C. Röder, R. Bellmann, K.E. McCarson, J.E. Krause and G. Sperk (Austria, USA) 158

Decrease and increase of responses to glutamate receptor agonists in RNA-injected *Xenopus* oocytes by the epileptogenic agent pentylenetetrazol: dependence on the agonist concentration
P. Bloms-Funke, U. Mußhoff, M. Madeja, F. Spener and E.-J. Speckmann (Germany) 161

GRP immunoreactivity shows a day–night difference in the suprachiasmatic nuclear soma and efferent fibers: comparison to VIP immunoreactivity
H. Okamura and Y. Ibata (Japan) 165

Decrease in 6R-5,6,7,8-tetrahydrobiopterin content in cerebrospinal fluid of autistic patients
Y. Tani, E. Fernell, Y. Watanabe, T. Kanai and B. Långström (Japan, Sweden) 169
